A Brief
History of
Title II
Formula
Grants

The Formula Grants Program is authorized under the JJDP Act of 1974, as amended in 2018. The JJDP Act was reauthorized in 2018 by Congress and another reauthorization was submitted to Congress in the Fall of 2024.

OJJDP's Formula Grants Program supports state and local delinquency prevention and intervention efforts, and juvenile justice systems improvements.

Within the program purpose areas, states can provide job training, mental health and substance use treatment, community-based programs and services, reentry/aftercare services, and school programs to prevent truancy.

OJJDP provides funds directly to states to help them implement comprehensive juvenile justice plans based on the needs in their jurisdictions.

Organizations and Programs that are eligible to apply for Title II Funds:

- Organizations and programs that address juvenile delinquency prevention

Welcome to the online Grants Management System - IGX!

Because this is a new online management system, all organizations will need to register with the system.

Steps to Get Started:

- The initial Registration for your organization must be completed by an Authorized Official (AO) for the organization
- Once the AO registers the organization, they will receive an email *Notification of Access Approval* from the online systems administrator
- The AO can then designate access to your organizational account for additional staff members as they deem appropriate

Some questions to ask when planning a proposal

What details do we need to consider for this proposal?

Does my organization have sufficient capacity to manage this award?

Do I know enough about the issue? Are there subject matter experts that I can collaborate with?

Is this project something that can be realistically achieved in the time available?

Do we have sufficient flexibility to adapt to the inevitable changes that will be part of this effort?

Who should realistically direct the efforts on this project?

What does my participation entail?

Do I have others who also need to participate in the project design and/or implementation?

Does my project make sense logically, and does my project plan convey all the needed information?

Can my agency realistically sustain their participation in this effort when the project period ends?
